

On the *6th* day of Christmas Hedrick gave to me...

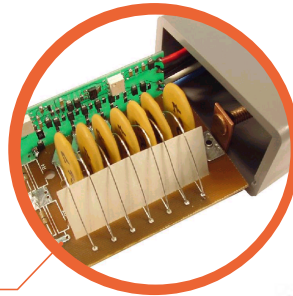

ASCO 560 Series Type 1 Service Entrance Rated SPD:

Why?

EPRI estimates between \$550 million and \$900 million of facility losses due to power quality anomalies.

Solution

- Modular and Serviceable
- 10-year parts and 5-year labor warranty
- Individually fused MOVs to ensure matched current handling
- Externally mounted to switchgear to maximize up-time
- Voltage-matched MOVs for precise current sharing
- Stringent 3rd party tested to verify specified performance
